

HALIFAX TOWN CENTRE

HALIFAX TOWN CENTRE MASTERPLAN

The refurbishment of Elsie Whiteley Mill, the Westgate canopy and the restoration of Somerset House have been successfully delivered under the Halifax Renaissance banner. A new cinema and bowling alley are in the pipeline, but much remains to be done before our vision for Halifax is achieved. Consultants BDP are in the process of drawing up a new Masterplan for the Town Centre and they would like your input.

A number of key projects are being proposed as part of this Masterplan including;

- the rejuvenation of the Piece Hall and surrounding area
- a new town square
- new development opportunities on key town centre sites
- a new or extended transport interchange
- a more pedestrian friendly town
